IMPORTANT:

Many sessions, video-conferences and participations in #osoc21 will be recorded.

The recordings can be used at different times and for different reasons.

If someone does not want their image to appear in these recordings disable the video and sound options.

Let's be very clear:

THIS IS NO SCHOOL ASSIGNMENT

IT'S
SERIOUS
BUSINESS

1.

What do we/our “partners” expect?

Expectations

- **Develop your project**
- **Put the code on GitHub**
- **Host your product or service (with the help of the Coach)**
- Write and execute a communication strategy
- **Create a branding around what you build**
- Write a proposal to make the project sustainable
- **Do the proper user testing**
- **Write all the necessary documentation**
- **Make a final presentation**
- **Promote / pitch your product**

Deliverables

- Hackathon presentation
- Source code on GitHub in one comprehensive repo
 - Documented
 - With a decent READ ME and LICENSE.md (Mostly MIT)
- GitHub page (HTML / CSS / Jekyll)
- Final presentation + blog post

2.

What do we have to help you along?

This!

- Coaches for each project
- Support in project management
- Lunch talks
- A looooooot of discussion

Tools

Invitations to the corresponding resource in the channel of each project:

- Github: <https://github.com/osoc-es>
- Google Drive (each project has one)
- Discord + Zoom (you are here right now ;-))
- Github Projects (each project has one):
 - All cards have from 1 to N assigned members
 - All cards start with a verb and must be atomic actions "Develop the database in MySQL". **They must never contain "and/or" words**
 - All cards in "*Doing*" columns need a due date
 - All cards have a priority that may change in every-sprint

Meetings

Morning meeting (9.30)

Organize the tasks for the day

Update Github dashboard and priorities

Add cards to doing

Plan the rest of the meetings

This is usually call "Daily meeting" in Scrum

Afternoon meeting (17:00)

Stand up on what you have done

Ask about problems that are still not solved

Drink a beer (not all days) with your team

Schedule is orientative

“

*your impact will be as big as the
quality of your pitch to explain the
solution*

*Pieter Colpaert
Co-Founder oSoc*

Hello!

I am Juan Utande

Project Manager at UPM

Business Support of Open Summer of Code Spain

Sustainable Development Goals (ODS)

Agenda 2030 (UN)

Sustainable Development Goals (ODS)

OBJETIVOS DE DESARROLLO SOSTENIBLE

17 Objetivos

169 Metas

#osoc21 focus in...

1

Recommendation of good habits for the 2030 Agenda

2

Innovation against climate change

3

Innovation to support neighborhood cultural organizations

4

Free project

3 SALUD Y BIENESTAR

11 CIUDADES Y COMUNIDADES SOSTENIBLES

8 TRABAJO DECENTE Y CRECIMIENTO ECONÓMICO

12 PRODUCCIÓN Y CONSUMO RESPONSABLES

13 ACCIÓN POR EL CLIMA

Hello!

We are Serge, Laura, Edna and Esteban

Researchers at Ontology Engineering Group (UPM)

Mentors of Open Summer of Code Spain

Proyecto 1 - High Open Data Quality in Madrid

Coaches: David and Edna

Motivación: Analizar la calidad de los datos en portales de datos abiertos

Objetivo final: App web que genere informes de calidad sobre conjuntos de datos y recomiende ficheros de metadatos del W3C

Tareas:

- Análisis e implementación de las guías para la calidad de datos tabulares de datos.gob.es
- Implementación de una prueba de concepto sobre el portal de datos abiertos de madrid
- Difusión del proyecto a nivel internacional

Proyecto 2 - Lateralidad

Coach: Esteban

- **Motivación:** Ayudar a padres y profesionales en el diagnóstico y resolución de problemas de lateralidad y logopedia en niños.
- **Tareas:**
 - Diseñar e implementar aplicación móvil especialmente diseñada para tablets. Nuestra idea inicial es usar el framework IONIC. Nuestro primera idea de diseño es que no tenga nada de backend para preservar la privacidad)
 - Actividad de trabadas (palabras con dos consonantes seguidas de vocal).
 - Se mostrará un dibujo que represente una palabra
 - El usuario podrá escuchar la palabra
 - Deberá ir introduciendo las letras de la palabra en orden.
 - Aplicación técnicas de gamificación
 - Generación de informes para padres y profesionales (en base a una serie de criterios)
 - Diseñar página web de difusión centrada en la aplicación (logos incluidos)
 - Opcional: Actividad de caligrafía

Proyecto 3 - Hire a Senior

Coach: Serge

- **Motivación:** Ayudar a personas mayores/retiradas a mantenerse activas mentalmente y a recibir ingresos económicos complementarios para mejorar su calidad de vida.
- **Objetivo Final:** Diseñar e implementar una web que permita la contratación de personas mayores / retiradas.
- **Tareas:**
 - Implementar la interfaz que permita la creación de perfiles. Esta interfaz debe ser simple e intuitiva para una persona mayor.
 - Implementar la interfaz de búsqueda de perfiles, para que las empresas o independientes puedan realizar las contrataciones.
 - Diseño del plan de negocio.

Communication rules

- **Share with everybody what you are doing**
- Use your Social Networks
- #oSoc21 Social Networks are:
 - TWITTER @osocode_es
 - INSTAGRAM osocode_es
- **Don't forget to use the hashtag #oSoc21**

Tips for newcomers

- **Don't be afraid to ask questions**
- Don't commit things you shouldn't be committing

Core values #osoc21

Openness

- Be honest and transparent about your work and progress
- Learn anything from anyone at anytime
- Seek and provide honest feedback

Core values #osoc21

Scientific attitude

- Envision big and start small
- Build, test and deploy
- Learn from successes and mistakes

Core values #osoc21

Collaboration

- Communicate in ways that can be heard and understood
- Share what you know and ask what you don't
- Seek new ideas and approaches with your teammates
 - Channels like #Developers or #Design
- Have fun:
 - Channels like #Sport, #Music, #Films, or #Gamers
